Technical information about this website's accessibility

We are committed to making our website accessible, in accordance also with the Public Sector Bodies (Websites and Mobile Applications) (No. 2) Accessibility Regulations 2018.

Compliance status

This website is **partially compliant** with the <u>EN 301 549</u> "Accessibility requirements for ICT products and services", the European Standard and <u>Web Content Accessibility Guidelines version 2.2</u> AA standard.

Non-compliance with the accessibility regulations

- C.9.1.1.1 - Not all non-text content presented to the user has a text alternative that serves the equivalent purpose.
- C.9.1.4.3 - Where not allowed, visual representation of text and images containing text does not always have the minimum contrast ratio required ***;
- C.9.1.4.4 - Some texts, except for subtitles and images containing text, cannot be resized up to 200 percent without using assistive technologies and without losing content and functionality;
- C.9.1.4.11 - For some essential components, even in different states, the color contrast compared to adjacent elements does not exceed the ratio of 3:1;
- C.9.2.1.1 - Some features cannot be activated by keyboard (or similar input interface);
- C.9.2.4.1 - There is no mechanism to skip content blocks that repeat on multiple web pages;
- C.9.2.4.7 - On some interactive elements the focus indicator is not visible;
- C.9.3.3.1 - In some cases, when an input error is automatically detected, the erroneous item is not identified and/or the error is not described by text;
- C.9.3.3.2 - In some cases no labels or instructions are provided when the content requires input actions by the user;
- C.9.4.1.3 - In some cases state messages are not presented to the user so that a.t. interpret them without having to move the focus;

You can configure the accessibility widget (overlay) to obtain a partially or fully accessible version with respect to these nonconformities.
For everything to work, the widget must be fully loaded and the adaptations activated.
Incorrect configuration of the widget could reduce accessibility.
